

PRIDE CAMPING ASSOCIATION

SAMPLE INCLUSION POLICY INCLUSIVE STAFF UNIFORMS

While at [Your Organization], all staff members are encouraged to have full control of their gender expression, and to dress in a way that makes them comfortable. The staff uniform policies outlined below are required for all staff, but are not gender-specific; they are in effect for professionalism and safety and apply equally to all staff members, regardless of gender. The uniform policies are intended to be respectful of staff members who are gender creative, or who are in the process of transitioning.

If you have any questions or concerns, please contact [Assigned Person].

[Ensure your camp-specific uniform policies do not make any assumptions about what people should or should not be wearing. For example, if two-piece bathing suits are not permitted, instead of saying "women must wear one-piece bathing suits", say "professional one-piece bathing suits are required and two-piece bathing suits are not permitted.]
